Dear Applicant,

Thank you for taking the time to consider the post of Teacher in our school, and we hope the information gives a sense of the vision for the school.

Our vision is to ensure that all of our students are enabled to achieve to the very best of their ability and beyond. We will achieve this by ensuring that every lesson counts; through good and outstanding teaching and focusing on the individual needs of each and every student. In many respects, our philosophy is straightforward; we want all of our students to receive an excellent education to help them to prepare for their future lives.

It is an exciting time at the school as we expand to 1200 students over the next five years, and the associated site developments that will allow, that will help this very popular school move into its next phase. More importantly, we believe passionately that to achieve lasting school improvement, the critical element is the investment a school places in its staff, and that starts from recruiting the best teachers and ambitious leaders to instil that climate of change in the school.

Our members of staff are critical to achieving this vision and securing the best futures for our young people. We are always keen to hear from talented professionals at all stages of their career who believe they can support our vision.
